

I am writing to protest the proposed replacement of FM translator stations with LPFM stations.

My family and thousands of others in our area listen to KLOVE through an FM translator.

We could not hear this station without the translator.

We live out in the boondocks of Western Nebraska and travel over vast areas of empty prairie.

It is great to be able to tune into KLOVE wherever we travel in the Nebraska panhandle and in eastern Wyoming.

Without KLOVE, there would be no opportunity for us to listen to programming such as that offered by KLOVE.

KLOVE provides a service that is beneficial to the community and that we could not obtain otherwise.
